

Lake, Angel In Disguise

I know you like it
So dont you hide it
Youre a hot one yes you are
Youre a hot one now

Ive heard from others
Beneath your covers
They get undone yes they do
They get undone there with you

So you dont have to tease me
Or fool me around with with your angel in disguise
You know what Im after
So lay on the ground I can see it in your eyes

Ride on baby ride on child
Ride on honey ride me wild

I wonder could I
Come to your boudoir
For a short time oh yeh
For a short time now

You know Im missing
What youve been giving

All around town yes you do
All around town baby blue

So dont give me the lady
Your virgin in white on your angel in dusguise
You know what Im after
What youre after too I can see it in your eyes

Ride on baby ride on child
Ride on honey ride me wild
