

Lake, Between The Lines

Take my life and write it down
Sure won't take much time
Won't be so much there to see
It's all between the lines

Tried my hand at better things
Never worked out right
Spent 10 years to find the dream
Was there before my eyes

And now I try to make up for those days
Make a new start
Can't be worse than that day
Try to forget all those times
Make a new start
And live out the lie
And live out the lie

It's hard to say where I went wrong
Giving pearls to swine
Now I see my life has changed
Much to my surprise
So if you should read my book
If you find the time
Make your way from page to page
Read between the lines

But still I try to make up for those days
Make a new start
Can't be worse than that day
Try to forget all those times
Make a new start
And live out the lie
And live out the lie

Wowowowo
You never stopped for a moment
Never gave a thought how you lived your life
Everything they said was lies
Wowooo
Some might think it's all over
But you've seen the light
But you must be blind
They built the walls around you high
Wowooo
Open your eyes

But still I try to make up for those days
Make a new start
Can't be worse than that day
Try to forget all those times
Make a new start
And live out the lie
And live out the lie
