

# Lake, Glad To Be Here

Out striking for better pay  
Cold war on inflation  
Now electionsll change it all  
You know?

Still fighting in Africa  
One more revolution  
Ceasefire but no one cares  
On no!  
Sitting safe, were away from it all  
With a blind eye were celebrating  
Didnt ask to be here at all  
But we are so youd better face it

Were so glad to be here  
Far away from aggravation  
So glad to be here  
Its a lazy life, we love it all

The Queen of Englands gone down with flu  
From Harley Street come physicians  
Idi Amin is still alive  
But who cares?

People dying in India  
Water flooding the nation  
Leeds Unitedve won the cup  
Hooray!

Feeling fine with our feet at the fire  
And the world slipping past our windows  
Overweight, otherwise you look great  
The main thing its no skin off your nose

Were so glad to be here  
Far away from aggravation  
So glad to be here  
Its a lazy life, we love it all
