

# Lake, Jesus Came Down

Father Time you hold the key  
To what will come and what will be  
Things could happen that could change our lives  
The second coming of the Lord  
What would you think it made of us  
What would He say

Jesus came down and the word got around  
He wasn't pleased at the fighting, oh  
Thousands of years, full of blood, pain and tears  
Yes, he found out that the world hadn't changed

And we nailed him to a cross  
For preaching faith and love to us  
Times have changed, that's what we always say  
It's just a dream that some believe  
Perhaps today at twenty years, we'll see the day
