

# Lake, Living For Today

Hey we're living for today  
You got to know that we love that livin'  
Hey we're living for today  
Gimme some of that sweet old living  
Hey we're living for today  
Playing safely can you call that living

We're taking a chance with every single day  
We're playing it safe girl in much too many ways  
Do you remember back in 1965  
We said what we thought  
But things have changed with time

Believe me, nothing can please me going on this way  
Forget those seasonal sorrows  
And start living for today

Hey we're living for today,  
Hey we're living for today

We're tired of Life, with oh so little play  
It used to be cool babe, like a summer holiday
