

# Lake Of Tears, Sister Sinister

A place so scarlet in a well, tide is creeping up so tell  
Stories of her golden time, night coming and the stars  
Listen to her voice again, sister sinister will say

Sister sinister will say how you're doing there today  
And by the way, how are you doing there

Lady lust in all her prom flying closer to the sun  
Closing up into my mind wonder what she's gonna find  
Looking at her face again, sister sinister will play

Sister sinister will say how you're doing there today  
And by the way, how are you doing there
