

Lake, One Way Song

Feelin sad that its over now
But I cant say that Im in pain
Maybe I shouldve told you a lie, I dont know
I couldnt cry when you said weve through
No, the only thing I thought of was you
Giving me love, I couldnt return
Oh, baby how could I avoid hurting you

All along, love was a one was song
Which was fading away
All along, keeping you hanging on
It was always the same, no matter how you tried
Cause the love was all coming from your side
And my heart would never tell you a lie
For your song

Dou feel Ive been using you
If you do I can understand
In return for your love all you had was a friend
In many ways I must take the blame
For looking at it more as a game
Taking a love, I couldnt return
I was hurting you again and again

All along, love was a one was song
Which was fading away
All along, keeping you hanging on
It was always the same, no matter how you tried
Cause the love was all coming from your side
And my heart would never tell you a lie
For your song
