

# Lake, Scoobie Doobies

Two in the morning stop you falling out of bed  
You make your way to the breakfast table  
Feeling cool and fresh  
Three at the office help you start your working day  
Pick up your morning paper n read  
Some rock star passed away

Round about eleven you take your coffee break  
Your stomachs feeling kinda funny  
So you take another eight  
Looking out the window you feel glad that youre alive  
But just for the sake of safety  
Yeh take another five

Scoobie doobies never done no one no harm  
Scoobie doobies keep the world a spinning round  
Scoobie doobies never done no one no harm  
Scoobie doobies keep the world a spinning round  
And round round and round

You pull into the driveway yes another days been won  
But you know without your scoobies  
That youd never get things done  
Every morning tiredness and every night awake  
You know the cure what youre looking for  
Lend an ear now hear me say say

Scoobie doobies never done no one no harm  
Scoobie doobies keep the world a spinning round  
Scoobie doobies never done no one no harm  
Scoobie doobies keep the world a spinning round  
And round round and round

Later in the evening you find all your scoobies gone  
So you take a bottle from the bar  
And you drink it till its done  
The door is busted open and youre laying on the floor  
A policeman finds in your hand  
An empty scoobie jar ah

Scoobie doobies never done no one no harm  
Scoobie doobies keep the world a spinning round  
Scoobie doobies never done no one no harm  
Scoobie doobies keep the world a spinning round  
And round round and round

We all love scoobie doobies  
We all love scoobie doobies (2x)
