

Land of Tales, Right as rain

When in the search for diamonds
we end just digging up the coal
the reason is to remind us
no love without the soul
And in the search for loved ones
we end up on a one-way street
there were things we put behind us
and they brought us to our knees
And if you still like to believe
stayin true to yourself is your dream
it will never end or ease the pain
the truth will always fall down the same
Right as rain
there is no way to escape the pain
Right as rain
no other life to live again
Right as rain
well make all the same mistakes
Right as rain
When in the search for miracles
we make our way through the stars
'cause the journey is not over
though we may have gone too far
And in the search for loved ones
we end up on a higher plane
there were things we put behind us
but the mystery will prevail
And if you still like to believe
stayin true to yourself is your dream
it will never end or ease the pain
the truth will always fall down the same
Right as rain
there is no way to escape the pain
Right as rain
no other life to live again
Right as rain
well make all the same mistakes
Right as rain
