

# Landon Austin, Ready For Anything

We look out and see the world  
It takes everything we have to face it  
Without a sound we'll take a step  
Inside our hearts are racing

If it takes forever  
We'll get there together

I'm winding along this road  
Not knowing where you will go  
No matter what life brings  
If it's you and me  
We're ready for anything  
Watch you  
The clouds go by  
Our turn  
We'll learn to fly  
No matter what life brings  
If it's you and me  
We're ready for anything

We're ready for anything /3x

So as we ride into the sun  
Sometimes we know we're gonna fall down  
Hold my hand and we'll get up  
I know we're gonna make it somehow

If it takes forever  
We'll get there together

I'm winding along this road  
Not knowing where you will go  
No matter what life brings  
If it's you and me  
We're ready for anything  
Watch you  
The clouds go by  
Our turn  
We'll learn to fly  
No matter what life brings  
If it's you and me  
We're ready for anything

We're ready for anything /3x

Come on come on we can be  
Come on come on I don't care  
I'd go with you anywhere  
/4x

We're ready for anything /3x
