

Lange feat. The Morrighan, Follow Me

Follow me, to the edge
and follow me into the dream
and dance with me, into the star fire
like tonight is all there is
and make the leap of faith, and don't look down
follow me, to the edge
passion for our wings
Follow me, to the edge
and follow me into the dream
and dance with me, into the star fire
like tonight is all there is
and make the leap of faith, and don't look down
follow me, to the edge
passion for our wings
take my hand, the moment sings
make me fly ??? passion for our wings
follow me, to the edge
