

Lannen Fall, Dead Air

We've read the papers
We've watched the news
But we can't find you
I feel the music fading faster
More than ever before
Between the static we found each other
In the silence you changed
Radio, Radio
I don't want your fake love anymore
We've heard the same song
Radio, Radio
I don't want your fake love anymore
You've got it all wrong
Dial me out, of this uniform playlist
It's time to make my own
Dial me out, the channels are all wrong
Between the static we found each other
In the silence you changed
Radio, Radio
I don't want your fake love anymore
We've heard the same song
Radio, Radio
I don't want your fake love anymore
You've got it all wrong
So don't make a sound
We won't wait around
We've got our own noise now
Waste my air time
Dead silence, better served
Waste my air time
We all need a change
Radio, Radio
I don't want your fake love anymore
We've heard the same song
Radio, Radio
I don't want your fake love anymore
You've got it all wrong
