

# Lannen Fall, Holly Hospital

How could I know not to leave her alone  
When I told her that I'm always close  
We were wasting time by failing with our words  
And every moment let us slip a little further  
Holly Hospital, don't fall down now  
And make me wait forever  
Holly Hospital, don't fall down now  
And leave me alone  
Open the door, she's on the floor  
I try to pick up the pieces  
Such a mess, in her black dress  
Yet she seems peaceful  
We'll dance again  
We'll dance again  
They can make you stronger  
We'll dance again  
We'll dance again  
A little slower  
Holly Hospital, don't fall down now  
And make me wait forever  
Holly Hospital, don't fall down now  
Why did we wait so long?  
(When I could have had you, oh)  
Why did we wait so long?  
(When I could have had you)  
Is it wasting time if all we do is tow the line  
I've waited for forever and I need to feel something  
Is it wasting time if all we do is walk the line  
I tried to hold on but you slipped through  
Holly Hospital, don't fall down now  
Holly Hospital, don't fall down now  
And make me wait forever  
Holly Hospital, don't fall down now  
And leave me alone  
Holly Hospital, don't fall down now  
(Dance again, dance again)  
Don't fall down now  
Holly Hospital, don't fall down now  
(Dance again, dance again)  
Don't fall down now
