

# LANY, If You See Her

just look at us  
you'd never bet against our love  
got that kind of thing that lasts

table for 2  
she said for life, so I;m confused  
how'd she turn it off so fast

don't know what she left me for  
she won't talk to me anymore

so if you see her  
tell her I'd do anything I need her  
I know I'm not perfect but we were  
she says she doesn't love me don't believe her  
if you see her

maybe today  
my phone will ring,  
I'll see her name  
trying not to hold my breath

it's all a blur  
but I remember holding her last  
time that I was in her bed

woke up with her head on my chest  
this doesn't make any sense

so if you see her  
tell her I'd do anything I need her  
I know I'm not perfect but we were  
she says she doesn't love me don't believe her  
if you see her

does she reminder  
the night before goodbye she said forever  
and made me swear I'd never leave her  
she says doesn't love me, d  
don't believe her  
if you see her

so if you see her  
tell her I'd do anything I need her  
I know I'm not perfect but we were  
she says she doesn't love me don't believe her  
if you see her
