

# Lard, Faith Hope And Treachery

Disconnected, dysfunctional  
Soulmates with nobody else  
Sing a song for the New Ice Age  
Greed has made us lonely

Faith, Hope and Treachery  
Faith, Hope and Treachery  
Faith, Hope and Treachery  
Faith, Hope and Treachery

Children of the 80's  
Values shaped by Reagan greed  
Don't stick long with anything  
Going gets tough, change the channel and  
flee

In  
Out  
Twist  
Shout

Everyone's scared of everyone else  
'Specially who they love the most  
No kind act goes unpunished  
Show you care just shows you're weak

So take 'em all for what they're worth  
Otherwise they'll get you first  
#1 must be preserved  
Friends aren't for keeps, they're for dessert

In  
Out  
Twist  
And Shout

Faith, Hope and Treachery  
Faith, Hope and Treachery  
Faith, Hope and Treachery  
Faith, Hope and Treachery

Years go by, get sick of games  
Warmth gets repressed just like hate  
Reagen children flunk out at love  
It's always someone else's fault

It's always someone else's fault  
It's always someone else's fault  
It's always someone else's fault  
Faith, Hope and Treachery
