

Larger Than Life, Our Ten Year

Im holding out for twilight
The time between our highlights
We wait for something better
To come along, and

Pick us up when we're down
Constantly, and I found
The one thing that can save me
I already have

and thats the start of our show
Been waiting heavy-hearted too long
And the faster we go
The less I
Can hold on
So like a new child
I sit and watching with wishful eyes
Thats the start of our show
We'll take this one slow

The score is now 10 to 1
The day that I said Im done
And ripping your heart out right
Is not what I had in mind

You'll find me standing right there
Waiting at our ten year
I hope time doesn't change you
And I pray that it fixes me

Thats the start of our show
Been waiting heavy-hearted too long
And the faster we go
The less I
Can hold on
So like a new child
I sit watching with wishful eyes,
Thats the start of our show
We'll take this one slow

Slow....ly
I know
I cant break through
When my bitter heart
Hit my unkept mind
Thats when I lost touch with you

Thats the start of our show
Been waiting heavy-hearted too long
And the faster we go
The less I
Can hold on
So like a new child
I sit watchin with wishful eyes
Thats the start of our show
We'll take this one slow
