

# Lari White, That's How You Know (When You're I

You can take a stranger home  
Never spend a night alone  
But you have to face the morning feeling empty inside  
'Cause you can't pretend it's real  
When what you really want to feel  
Is the magic of the moment when love can't be denied

When your heart makes a sound like rolling thunder  
And your arms are wrapped around an angel from above  
And when the earth begins to shake  
'Cause it can feel the love you make  
Oh oh oh that's how you know  
When you're in love

I had all but given up  
On ever finding love  
Until I caught a glimpse of heaven when I looked into your eyes  
And your fingers touched my skin  
Like a stormy summer wind  
Now I'm falling like the rain oh what a sweet surprise

When your heart makes a sound like rolling thunder  
And your arms are wrapped around an angel from above  
And when the earth begins to shake  
'Cause it can feel the love you make  
Oh oh oh that's how you know  
When you're in love

All of God's creation starts to sing in harmony  
All I know you can hear it baby I know you believe

When your heart makes a sound like rolling thunder  
And your arms are wrapped around an angel from above  
And when the earth begins to shake  
'Cause it can feel the love you make  
Oh oh oh that's how you know  
When you're in love
