

Lari White, Wild At Heart

(Lari White/Al Anderson)

Well I guess you might'a heard of me
That I'm a little loose and fancy free
Darling, I don't wanna leave no doubt
I'm the girl your mama warned you about

The place is jumpin' and I'm in the mood
Why don't you let me change your attitude
Well I know a good place to start
You gotta get a little wild at heart

I'm crazy, baby, crazy over you
Maybe baby I can make you a little crazy too

I think you oughta loosen up that tie
Call your mama with alibi
Tell her you won't be home 'til after dark
You gotta get a little wild at heart

I'm crazy, baby, crazy over you
Maybe baby I can make you a little crazy too

Shake it loose and let it all hang out
I wanna see you do the twist and shout
You don't have to be a billionaire
No modern day Fred Astaire

You're really rockin', now your doin' fine
It didn't take you long to lose your mind
You can't stop it, honey, once you start
You gotta get a little wild at heart
You can't stop it, honey, once you start
You gotta get a little wild at heart
