

Larry, 90's Hippie

I've seen Dylan but not The Dead
been to a rally of pot smokin' heads
Taken a trip and I've lost my head
And I've had some pretty's in my bed
yeah thats what I said
Well I had some wine, I lost my mind
Couldn't make it to work on time
Picked up some habits along the line
Now I'm feeling, I'm feeling fine
Yes I'm feeling fine
"cause I'm a nineties hippie, can't stop our foldk
One thing we've got it's a lot of hope
Feelings we got they have been felt before
I only wish they could be felt some more
You gotta give me some more yeah
Well I got my own place a friend named Dave
I can't keep money hell "cause I can't save No
Some people say that you get high
But I don't care you see I'm getting by
Yes I'm getting by
"cause I'm a nineties hippie, can't stop our foldk
One thing we've got it's a lot of hope
Feelings we got they have been felt before
I only wish they could be felt some more
You gotta give me some more yeah
Well I spent some time in the olden school
Had to go by the others rules yeah
Now I'm out and my hair is long
And I'm singing a different song
It's a different song yeah
"cause I'm a nineties hippie, can't stop our foldk
One thing we've got it's a lot of hope
Feelings we got they have been felt before
I only wish they could be felt some more
You gotta give me some more yeah
Well I'm a nineties hippie, can't stop our foldk
One thing we've got it's a lot of hope
Feelings we got they have been felt before
I only wish they could be felt some more
