

# Larue, One White Tulip

I was just thinking  
about how time flies  
And that we're all drifting  
like clouds in the sky  
And you have always been there  
And now we have all changed  
And it's been one Beautiful life

I was just wondering  
on how to recall  
the wonderful memories  
and how they all fall into place,  
Like the smile on your face  
Like the kisses and the tears that we've shared

It's been one beautiful life  
And I know it's tasted it's trials  
It's been one beautiful life  
And I know it's tasted it's trials  
And it's not over  
It's only begun

We've always been different  
But never alone  
Like one white tulip  
that stands on it's own  
And you will always be here  
And we will stay the same

It's been one beautiful life  
And I know it's tasted it's trials  
It's been one beautiful life  
And I know it's tasted it's trials  
And it's not over  
It's only begun

And it's been one, beautiful life  
And it's been one, beautiful life  
yeah, yeah, it's tasted, it's tasted its trials  
it's been one, one, beautiful life  
yeah it's been one beautiful life
