

Larue, Run To You (The Piano Song)

I'm feeling so inspired about the love that pours over me
And I can't describe it, as you overwhelm my soul

ANd right now I come before you
To praise the name that gives me life

And every time I run to You, You're there for me
And every time I have a wound inside You heal, You heal

And right now, in this silence, I feel my heart draw near to You
