

Lasgo, Out Of My Mind

i've been waiting for tonight
you give me fever deep inside
it's you and me together
i feel it in my soul
we can last forever
you just make me loose control!
i can get you out of my mind
it's silly but i think about you all the time
all you have to do is give me a sign
to make me fall in love, love, lo-o-ve
i can get you out of my mind
it's silly but i think about you all the time
all you have to do is give me a sign
to make me fall in love, love, lo-o-ve
when you dancing close to me
it's for everyone to see
it's you and me together
i feel it in my soul
we can last forever
you just make me loose control!
it's you and me together
i feel it in my soul
we can last forever
you just make me loose control!
i can get you out of my mind
it's silly but i think about you all the time
all you have to do is give me a sign
to make me fall in love, love, lo-o-ve
i can get you out of my mind
it's silly but i think about you all the time
all you have to do is give me a sign
to make me fall in love, love, lo-o-ve
