

Last Blush, About You

'cause now I can see,
Every single trip i'm thinkin' about you,
'cause now I can see,
Don't want to lose it,
While you're around here

I was alone with my broken hopes,
You reminded me how to feel complete,
Oh, I act so long to pretend my smile,
Would you go with me and hold me tight

'cause now I can see,
Every single trip i'm thinkin' about you,
'cause now I can see,
Don't want to lose it,
While you're around here

□

While you're around here
While you're around here
don't want to see
While you're around here
While you're around here
don't want to lose it!
While you're around here
While you're around here
don't want to see
While you're around here
While you're around here
don't want to lose it!

I still remember my fallin' tears,
I tried to walk through his lies,
Oh you woke me up from my deepest sleep,
Would you go with me and hold me tight□

'cause now I can see,
Every single trip i'm thinkin' about you,
'cause now I can see,
Don't want to lose it,
While you're around here

□

While you're around here
While you're around here
don't want to see
While you're around here
While you're around here
don't want to lose it!
While you're around here
While you're around here
don't want to see
While you're around here
While you're around here
don't want to lose it!
