Latino, Don't Say Goodbye

You gave me love when needed more You tought me how to love you girl The more i try never can hide my feelings But now you're going i just can't believe Girl let me be your only guy Let me show you the town tonight

Oh! Baby don't say goodbye Let's stay together tonight You're part of my life It's just a matter of time, girl Don't say goodbye Let's stay together tonight I need you so much but if you go Be sure that i will cry
