

# Laura Branigan, All Night With Me

I wish I knew what you were thinkin'  
Sometimes with you it's hard to tell  
You lay beside me without speakin'  
Words are hard to find, better left behind

You pull me close as if to answer  
The question runnin' through my head  
If words could say it any better:  
Does it feel good, do you feel like stayin' all night with me?  
Does it feel good, do you feel like stayin' all night with me?  
Does it feel good? If it feels right, stay all night

We'll wake up early in the mornin'  
Or never go to sleep at all  
So happy just to be together  
Does it feel good, do you feel like stayin' all night with me?  
Does it feel good, do you feel like stayin' all night with me?

If it feels good, if it feels right, stay all night

It's a long night, there'll be time for playin'  
Never felt so right just to hear you sayin'  
That it's all right, and you feel like stayin' all night with me  
Does it feel good, do you feel like stayin' all night with me?  
Does it feel good, does it feel right?  
Why don't you stay all night with me?  
Does it feel good, do you feel like stayin' all night with me?  
Does it feel good, does it feel right?  
Why don't you stay all night with me?  
Does it feel good, do you feel like stayin' all night with me?  
Does it feel ... [fade out]
