

# Laura Izibor, Carousel

Cause she was his lover  
she was his friend  
he was her everything  
someone to depend  
When she wakes up in the mornin'  
and all his things are gone  
she looks into the mirror  
thinkin' what did i do wrong  
There he goes  
but i gotta keep movin'  
there ain't nothing to lose for ?  
Everyday has its ups and downs  
you think you're lost  
you will be found  
most of us want the same old things  
someone to love  
what it brings  
i know its hard it gets tough sometimes  
you gotta hold on, like a carousel  
going around & around & around & around  
she was so young  
but she was in love  
he promised her everything  
that she could dream of  
when she wakes up in the mornin'  
finds that he ain't there  
she looks into the mirror  
thinking how did i get here  
there he goes  
but i gotta keep movin'  
there aint nothin' to lose for ?  
Everyday has its ups and downs  
you think you're lost  
you will be found  
most of us want the same old things  
someone to love  
what it brings  
i know its hard it gets tough sometimes  
you gotta hold on, like a carousel  
going around & around & around & around  
Yeahhhhhh  
Everyday has its ups and downs  
you think you're lost  
you will be found  
most of us want the same old things  
someone to love  
what it brings  
i know its hard it gets tough sometimes  
you gotta hold on, like a carousel  
going around & around & around & around
