

# Laura Pausini, Every Little Thing You Do

When you listen to my heart  
Oh, I like it  
When you touch me I get  
So excited  
And I never thought that I would say  
I'm blown away and so into  
Every little thing you do

When you look at me that way  
Oh it moves me  
When you take my hand the love  
Goes right through me  
And the reason that it feels so good  
Is because you put your heart into  
Every little thing you do

You're the rhythm in my song  
You're the switch that turns me on  
The only place where I belong or want to be  
You're the half that makes me whole  
The only one who sees my soul  
Baby it's so real but still I can't believe  
Every little thing that you do to me

When you take my hand  
I like it  
Oh I Like it  
When you listen to my heart  
Oh I like it  
I like it

Even in the night when you're not here with me  
My sweetest dreams still take me to  
Every little thing you do

Repeat Chorus

Oh I Like it  
Hmm, I Like it

Every little thing

I like it
