

Laura Pausini, I Do To Be

Take a look around
Take a look at me
And tell me what you see

Am I just a friend
'Cause if I am
I wanna be more it's true

Anything you want
Anything you need
I can give to you
If you let me in

My heart is opened wide
For you to come inside
And make yourself at home

No mountain'd be too high for me to climb
As long as you were on the other side
Everything I do I do to be I do oh with you

Nothing in this world could ever be
More than you already are to me
Everything I do I do to be I do oh with you

Wanna pull you close
Wanna let you let you know
What you mean to me

I can show you love
And what it does
Are you down to be

My only one
'Cause when I'm done
Baby you will feel
More than you imagined

My heart is opened wide
For you to come inside
And make yourself at home

Repeat Chorus
