

Laura Pausini, If That's Love

If you're gonna break my heart and leave
Make promises you don't intend to keep
If that's love then I want no part
But if you think that love should last for life
If you believe it's more than just one night
If that's love then you've got my heart
And you'd rather hold on to your pride
And wipe away the tears you made me cry
If that's love then I want no part
But if you're gonna be there when I need
Someone to just hold me tenderly
If that's love then you've got my heart

If the kinda love that you bring
Comes with no demands and no strings
If in your eyes I see for sure
That you're the one I'm waiting for
I'll give my heart, my soul, my everything

If I have to let go out my dreams
Because someone I never never thought I'd be
If that's love I want, I want no part
But if you're gonna be that kinda man
Who's willing just to take me as I am
If that's love then you've got my heart

Tell me in your arms I'll be safe
Where loneliness and fear have no place
The only thing you have to do
The only thing I ask of you
Is give your heart, your soul and your faith

And if you cannot give these things to me
Then I just have to tell you honestly
If that's love I want no part
But if you say you finally found in me
The only place that you could ever be
If that's love you've got my heart
If that's love you've got my heart
If that's love, if that's love
If that's love baby, you baby you
You've got my heart
