

Laura Pausini, One More Time

Nothing I must do

Nowhere I should be

No one in my life

To answer to but me

No more candlelight

No more purple skies

No one to be near

As my heart slowly dies

If I could hold you one more time

like in the days when you were mine

I'd look at you 'till I was blind

So you would stay

I'd say a prayer each time you'd smile

Cradle the moments like a child

I'd stop the world if only I

Could hold you one more time

(hmmmmmm)

I've memorized your face

I know your touch by heart

Still lost in your embrace

I'd dream of where you are

(music break) (hmmm)

If I could hold you one more time

Like in the days when you were mine

I'd look at you 'till I was blind

So you would stay

I'd say a prayer each time you'd smile

Cradle the moments like a child

I'd stop the world if only I

Could hold you one more time

One more time
