

# Laura Pausini, Without You

Close your eyes and say goodnight  
And hold me 'til the morning light  
When the Sun comes shining through  
I'll kiss you  
One last time  
And I'll begin to live my life without you

Wish the I could make you stay  
But I know I have no power to persuade  
The heart to do what it must do  
So kiss me  
One last time  
And tell me how to live my life without you

'Cause I love you  
Whitout an ending  
'Cause I need you  
To be my everything  
Tell me the meaning of a life without you with me

When the night falls  
I'll still be standing  
'Cause you'll always  
Be right here in my heart  
And in my deepest memories  
I won't ever have to be  
Whitout you

Love is like a work of art  
Once you feel it and you hold it in your heart  
You know forever that's true  
So kiss me  
For always  
Even if live my life without you

Repeat Chorus
