

Lauv, Bad Trip

They say there's no such thing as a bad trip
But if there's no such thing than tell me what the hell just happened
Cause it was worse than I imagined
Two tears and seven hours later I cried and I screamed
You were laying next to me but you didn't cry cause you already cried through the whole night
Yeah I just wanna die sometimes

Don't let me die in the dark
Don't let me die in the dark
Don't let me die in the dark
Don't let me lose my mind
Cause it's falling apart
Yeah it's falling apart
Yeah it's falling apart
It was a real bad night

Don't let me die in the dark
Don't let me die in the dark
Don't let me die in the dark
Don't let me lose my mind
Cause it's falling apart
Yeah it's falling apart
Yeah it's falling apart

That I was God, guess not
Cause I woke up feeling like shit
Got the whole thing wrong
Should've seen it all along
Thought my ego died but I guess it's still strong

I cried and I screamed
You were lying next to me
But you didn't cry cause you already cried
Through the whole night
Yeah I just wanna die sometimes

Don't let me die in the dark
Don't let me die in the dark
Don't let me die in the dark
Don't let me lose my mind
Cause it's falling apart
Yeah it's falling apart
Yeah it's falling apart
It was a real bad night

Don't let me die in the dark
Don't let me die in the dark
Don't let me die in the dark
Don't let me lose my mind
Cause it's falling apart
Yeah it's falling apart
Yeah it's falling apart

Don't let me die in the dark
Don't let me die in the dark
Don't let me die in the dark
Don't let me lose my mind
Cause it's falling apart
Yeah it's falling apart
Yeah it's falling apart
It was a real bad night
