

Lauv, Love U Like That

Drunk in the rain
Really old habits, really old baggage
Just walked away into your madness, onto your mattress
Goddamn okay
You're so attractive, how did that happen?
Hmmm ooh

And you're kissing on my neck
I'm like ohhhh
Got your hands up on my chest
I'm like ohhh
Kiss me til there's nothing left
Oh my god, oh my god

You could really tear me apart but

I love you like that
Everything you do just turns me on
I love you like that
Body on my mind like all night long
6 o'clock in the morning babe
Want you more than yesterday
Used to judge myself now I don't care cause
Hey
I love you like that
Everything you do just turns me on
I love you like that
Body on my mind like all night long
6 o'clock in the morning babe
Want you more than yesterday
Used to judge myself now I don't care cause

I'm wide awake
I don't need coffee, I know you want me
That's the champagne
Sipping it slowly
Getting to know you
And me the same
You're so attractive, how did that happen
Hmmm ooh

And you're kissing on my neck
I'm like ohhhh
Got your hands up on my chest
I'm like ohhh
Kiss me until there's nothing left
Oh my god, oh my god

You could really tear me apart but

I love you like that
Everything you do just turns me on
I love you like that
Body on my mind like all night long
6 o'clock in the morning babe
Want you more than yesterday
Used to judge myself now I don't care cause
Hey
I love you like that
Everything you do just turns me on
I love you like that
Body on my mind like all night long
6 o'clock in the morning babe
Want you more than yesterday

Used to judge myself now I don't care cause

Ooooh

Tell me we're something

Tell me we're nothing

Ooooh

You're driving me crazy

Driving in london

Ooooh

My minds in the back seat

My hearts in the front and...

Used to judge myself now I don't care cause

Hey

I love you like that

Everything you do just turns me on

I love you like that

Body on my mind like all night long

6 o'clock in the morning babe

Want you more than yesterday

Used to judge myself now I don't care cause
