

Lazy Town, Good Stuff

What goes up, must come down
People always tell me
But if you put a seed, in the ground
You'll see what goes down, must come up
What goes down comes up
When things start to grow
Good stuff starts to flow
It's the good stuff
It's the energy
We're growin' good stuff
It's the remedy
We're growin' good stuff
The best things in life are free
Plant what you wanna grow
Good stuff starts to flow
It's the good stuff
It's the energy
We're growin' good stuff
It's the remedy
We're growin' good stuff
The best things in life are free
Good stuff
We're growin good stuff
