

Lazy Town, Twenty Times Time

Twenty times time is here again
Twenty times time is all you need
Here's a little number for you
Twenty times up and twenty times down
It helps you with things that you have to do
Twenty times left and twenty times right
It's a special trick I know
That makes you get up and go
It doesn't take that long
Soon you'll shine the feeling is divine
This is what I say to you
Time to move
Time to make it happen
Twenty times time is here again
Time to smile
Time to get the feelin
Twenty times time is all you need
Now you know what I'm talking about
Twenty times up and twenty times down
A magic number without a doubt
Twenty times left and twenty times right
A smile to say hello
You know that feeling makes you glow
If you listen to this song
Soon you'll see it's good for you and me
This is what I say to you
Time to move
Time to make it happen
Twenty times time is here again
Time to smile
Time to get the feelin
Twenty times time is all you need to smile
Time to move
Time to make it happen
Twenty times time is here again
Time to smile
Time to get the feelin
Twenty times time is all you need
Time to move
Time to make it happen
Twenty times time is here again
Time to smile
Time to get the feelin
Twenty times time is all you need
Twenty times time!
