

LE SSERAFIM, Perfect Night

Me and my girlies, we gon' party till it's early
Got me feeling otherworldly tonight
Caught in some traffic, but the radio is blasting
Drop a red light and we'll sing it, "Goodbye"

Ooh
By the morning, feel like magic
I got all I need, you know nothing else can beat
The way that I feel when I'm dancing with my girls
Perfect energy, yeah, we flawless, yeah, we free
There's no better feeling in the whole wide world

Tonight
I don't care what's wrong or right
Don't start blowing up my line
I'd care at 11:59
But nothing counts after midnight

Come and take a ride with me
I got a credit card and some good company
So come through, make the fit real good
Why you still stuck on loading? Waiting on you, babe

Ooh
Night to morning, live slow motion
I got all I need, you know nothing else can beat
The way that I feel when I'm dancing with my girls
Perfect energy, yeah, we flawless, yeah, we free
There's no better feeling in the whole wide world

Tonight
I don't care what's wrong or right
Don't start blowing up my line
I'd care at 11:59
But nothing counts after midnight

Ooh
By the morning, feel like magic
I got all I need, you know nothing else can beat
The way that I feel when I'm dancing with my girls
Perfect energy, yeah, we flawless, yeah, we free
There's no better feeling in the whole wide world

Tonight
I don't care what's wrong or right
Don't start blowing up my line
I'd care at 11:59
Don't start blowing up my line
