

Leaf-Fat, Concealed

I've decided that it's not my life
I've decided is someone else
I've injected a poison view
Can you see me ?
Well i can see you

Hiding away, i'm hiding away, there's just to much pressure
I can't take it al
Pushing away, i am pushing away all the new made problems
I can't take it all

I've decided that it's not my life
And you've lighted up just to expose
My faint shelter with your pride within
Last encounter and i still see you

Seeing through you i can still taste it
Every "call her" that was made was wasted !!!
Wasted !!!
