

Leah Andreone, Tighten It Up

Get down cuz down's ok
I gotta get that something they had
back in the day
Let go for good funk's sake
Take another hit, can you make me shake?

Tighten it up yeah
Tighten it up
Tighten it up yeah
Tighten it up

God damn the devil's hand
Give in to the madness
Wave your hands in the air
Crawl in, scratch and tear
Get under my skin until I'm beyond repair

Let's go fly a kite
We'll get off in the sky
Hang with stars in cloudy bars
With blues on their minds

Let's go fly a kite
We'll get off in the sky
Find a groove that seems to soothe
And go for a ride

Take me to the edge
Push me off
It's worth it
You can climb up again

Give in you reckless binge
Anything to feel good
Let's do it again

Tighten it up yeah
Tighten it up
Tighten it up yeah
Tighten it up
