

# Leah Haywood, We Think It's Love

I never wanted  
I never wanted to be the one telling you this way  
But I can't keep it  
I can't keep this to myself anymore another day

We're holding on to feelings from way before  
What we want what we need is not there anymore

We think it's love love love love love  
But it's crazy  
We can't get it right  
Still we carry on  
Is this love love love love love  
Thinking maybe  
We've been going on  
Far too long

You never asked me  
You never asked me how  
How I felt those times you went away  
You don't need me  
Oh no  
You don't show me that you want me  
I'm just hanging in your way

We're holding on to feelings from way before  
What we want what we need is not there anymore

We think it's love love love love love  
But it's crazy  
We can't get it right

Still we carry on  
Is this love love love love love  
Thinking maybe  
We've been going on  
Far too long

We think it's love  
We think it's love  
We think it's love baby  
We think it's love.. We think it's love....etc

Fighting for a reason that I can't ignore  
What I want what I need is not there anymore

We think it's love love love love love  
We think it's love love love love love  
We think it's love love love love love  
Thinking maybe  
We've been going on

We think it's love love love love love  
But it's crazy  
We can't get it right  
Still we carry on

Is this love love love love love  
We've been going on  
Far too long  
We've been going on  
Far too long
