

# Leaves' Eyes, Hammer of the Gods

Whispered legends they tell  
Mjolnir never fails  
The power of celestial light  
Dispelling eternal blight

Striking fear into the hearts of giants  
Thrud's face under the midnight sun

In the realm of shadows  
I will wait for thee  
Through the mist of darkness  
Unleashed to set me free

Hammer of the Gods  
Glory to them all  
From heavens above it strikes  
The skies where heroes rise

Bathed in thunder rolls  
Through mighty realms unknown  
Listen to the shatter in high mountains  
Broken chains under the midnight sun

In the realm of shadows  
I will wait for thee  
Across the distant mountains  
Unleashed to set me free

Hammer of the Gods  
Glory to them all  
Hammer of the Gods  
True weapon of the storm

Ice cold breeze of the midnight air  
Roaming through my thoughts of despair  
Hope rises from divine might  
I embrace silver rays in the night

Hammer of the Gods  
Glory to them all  
Hammer of the Gods  
True weapon of the storm

In the realm of shadows  
I will wait for thee  
Through the mist of darkness  
Unleashed to set me free
