

# Lee Ann Womack, I Saw Your Light

I was a long lost soul  
I was a burnt out case  
I felt my heart grow old  
I wore a stranger's face  
I built a wall so high  
I built a gulf so wide  
I saw my life go by  
On the other side  
I wasn't looking for a miracle  
Just hoping for relief  
But you gave me something  
Something to believe

[Chorus:]

I saw your light  
and I was changed  
I was changed  
I saw your light  
And nothing is the same, no, no  
Maybe all of us are weak  
Maybe love is fast asleep  
In the middle of an endless night  
I saw your light  
I've come a long, long way  
I walked a crooked road  
And there was hell to pay  
And there were miles to go  
I thought I'd lost my nerve  
I thought I'd lost my spark  
Life had thrown a curve  
And I was in the dark  
I wasn't looking for a miracle  
Just hoping for relief  
But you gave me something  
Something to believe  
[Repeat Chorus]
