

Lee Ann Womack, Make Memories With Me

CHORUS:

Make memories with me
Make memories with me
Forget the one who might have been
And the one who used to be
Darlin' I've got love
And you've got love
And love is all we need
Oh, oh baby make memories with me

Let me hold you closer than
You've been held before
Let love take us higher than the stars
Ask me for forever
I'll give you even more
Just let me be the keeper of your heart

CHORUS
