

# Lee Ann Womack, Make Memories With Me (duet

(Leslie Winn Satcher/Danny Stegall)

Make memories with me

Make memories with me

Forget the one who might have been

And the one who used to be

Darlin' i've got love

And you've got love

And love is all you need

Oh, oh baby make memories with me

Let me hold you closer than

You've been held before

Let love take you higher than the stars

Ask me for forever

I'll give you even more

Just let me be the keeper of your heart

Make memories with me

Make memories with me

Forget the one who might have been

And the one who used to be

Darlin' i've got love

And you've got love

And love is all you need

Oh, oh baby make memories with me
