

# Lee Ann Womack, Painless

Met you in the kitchen  
Said you needed to talk to me  
Said you felt like those dirty dishes  
And it was high time you came clean  
The first few words just seemed to roll on past  
Then it felt like you handed me a fist full of broken glass  
Said take that

Painless  
Like rain rollin' off your shoulders  
You made it look so painless  
Didn't blink an eye when you ran me over  
And maybe you were waitin' to cry  
Cause baby when you said good-bye  
You made it look so painless

Stood out in the driveway  
Headlights fading down the street  
Like you just left for cigarettes  
And you weren't really leaving me  
The cold wind hit me in the chest  
The tornadoes gone and there ain't nothing left  
But this heart-broke mess

Painless  
Like rain rollin' off your shoulders  
You made it look so painless  
Didn't blink an eye when you ran me over  
And maybe you were waitin' to cry  
Cause baby when you said good-bye  
You made it look so painless

Painless  
Didn't blink an eye when you ran me over  
And maybe you were waiting to cry  
Cause baby when you said good-bye  
You made it look so painless

You made it look so painless
