Lee Ann Womack, When You Gonna Run To Me

I get lonely
But I get along
I still think about you
Is that wrong?
I talked to your brother
He said, you got a line on a job
You've been jettin' around
Like some big shot
You're running from old memories
You're running out of time, so

[Chorus:]
When you gonna run to me baby?
When you gonna run to me darlin'?
Well, I know it sounds crazy
But I know in my heart
You can run for a lifetime
And not get that far
You're running on empty
You're running on fire, so
[Repeat Chorus]

'Cause in the end you will stand once again by my side
But until then I know waiting's as hard as good-bye
You're running out of reasons
You're running out of time, so
[Repeat Chorus]

When you gonna run to me baby
When you gonna run to me
When you gonna run to me
When you gonna run to me
