

# Lee Ann Womack, You've Got To Talk To Me

How will I ever know what you're feelin  
how will I ever know what to do  
if you simply refuse to tell me  
what's goin on inside of you  
Have a little faith in me baby can't you see  
you've got to talk to me.

How can I ever know how to help you  
How can I ever know what to say  
If everytime your heart is hurtin  
you turn from me and walk away  
Have a little faith in me baby can't you see  
you've got to talk to me.

(Chorus)

No you don't have to lie  
look into my eyes there's nothin here  
but love for you. You dont have to be alone  
let me share the load, there's nothin more I'd rather do.

I'm the one you can always turn to  
I'm the one who will stand by your side  
my love for you is forever

You don't ever have to run away and hide

Have a little faith in me

baby can't you see

You've got to talk to me

(chorus)

I'm the one you can always turn to

I'm the one who will stand by your side.

my love for you is forever

You don't ever have to run away and hide

Have a little faith in me

baby can't you see, you've got to talk to me

Repeat 3 times.
