

# Lee Greenwood, Inside Out

In a way I'm glad it's over  
Even though it's gonna hurt me once you're gone  
I can learn to live without you  
Give me time and I can make it on my own

Lovin' you to me came easy  
Now losin' you will change my life no doubt  
In a way I'm glad it's over  
In another way it turns me inside out

In a way I guess it's better  
Even though there's nothin' good about goodbye  
But I know I couldn't hold you  
Now you've found your wings and you need to fly  
It's for sure I'm gonna miss you  
But I guess that's what goodbye is all about

In a way I'm glad it's over  
In another way it turns me inside out  
On the one hand I know I'll be better off once you've gone  
But I find a lot of heartaches on the other  
And I can't say I'll look forward to those nights I'll be alone  
And I wonder, will there ever be another

Cause lovin' you to me came easy  
Now losin' you will change my life no doubt  
In a way I'm glad it's over  
In another way it turns me inside out  
In a way I'm glad it's over  
In another way it turns me inside out
