Step to me

Follow my heart closer

Step to you

You can feel me

Step to me

Ultimately try not to think

Step to you

Can't see the end of tonight

You're like heavy sedation

So deep

After the door close and my fingertips touch skin

Feeling so high

Morning

Oh shit
It won't come as the candlelight shines
So sexy put the thang' on me
Drape it on
Freak it like that
Step to me

Step to me
Follow my heart closer
Step to you
You can feel me
Step to me
Ultimately try not to think
Step to you
Can't see the end of tonight

Your gaze coming closer like you're going to hurt me deeply
So bad
When the darkness clears I hope I don't hate myself

From now on fly breathlessly higher
You tired (Leave it to me) my girl
Don't keep in your shouts
Speak too louder
Feel, don't stop what you feel
You are my fire

Step to me
Follow my heart closer
Step to you
You can feel me
Step to me
Ultimately try not to think
Step to you
Can't see the end of tonight

I can feel you
I can hear you
You're my player
(Tell me what I do for you)
I can see you
I can hear you
My love to ya
(I can see ya)

Step to me
Follow my heart closer
Step to you
You can feel me
Step to me
Ultimately try not to think
Step to you
Can't see the end of tonight

Step to me
Follow my heart
Step to you
Step to you
Step to me
Try not to think
Step to you
Can't see the end of tonight
