

# Lee Kernaghan, Boys From Bathurst

We been running strong  
From the east to the west  
We been banging fenders  
To give you all the best  
We been setting records in every state  
Well their aint no car  
Like a big V8

To the boys from the bush  
we're back in town  
Well the cars in the back and the shutters down  
We're all heading for the Bathurst field  
To see Brokky and the boys serving up a thrill

We've been feeling the heat  
You can hear it cuss  
We've been kissing the fences  
Been choking on dust  
We curse the rain  
We curse the sand  
We're running hot  
Turn it on for the fans

To the boys from the bush  
We're back in town  
When the green flag drops  
My foot goes down  
We're all members of the horsepower sect  
And the king of the mountain is the guy you've got to get

We work our cars  
From go to whoa  
It's the greatest race  
It's the ultimate show

To the boys from the bush  
we're back in town  
Well the cars in the back and the shutters down  
We're all hear we're the Bathurst Boys  
And you can't hear that show against the noise

To the boys from the bush  
we're back in town  
When the big guns roar  
It's shaking the ground  
Steering straight and stay off the wall  
You get the checked flag and your walking tall  
You get the checked flag and your walking tall
