

Lee Roy Parnell, Where Is My Baby Tonight

I got a feeling hoping it's wrong why it is hanging on so long
Why is my heart aching so bad why is this song sounding so sad
I got a feeling hoping it's wrong

The ocean is on my left the desert is on my right
Heaven is up and hell is down but where is my baby tonight
Where is my baby tonight

I want you only you're not around
It's gettin' lonely the sun's going down
Here comes the moon here come the stars
Here come the blues from my old guitar
I want you only you're not around

The ocean is on my left...

Where is my baby tonight where is my baby tonight
Where is my baby tonight
Where is my baby tonight where is my baby tonight
Where is my baby tonight
